

ENERGYSMART DC PLAN

NASEO BRIEFING

May 2, 2014

Lance Loncke, Ph.D.

DDOE - Energy Administration

SUMMARY

- **Overview of the EnergySmart DC Plan**
- **EnergySmart DC Plan Goals**
- **Ongoing Actions to Achieve Energy Goals**
- **Implementation and Collaboration Strategies**
- **PSC Role in EnergySmart DC Plan**
- **Q&A**

OVERVIEW OF ENERGYSMART DC PLAN

- **“EnergySmart DC” is the District’s Comprehensive Energy Plan**
- **Establish 1-5 years energy savings targets based on the results of electric, gas and renewable energy potential studies**
- **Identifies the most cost-effective energy efficiency measures available in the District**
- **Identifies suitable options for financing the District’s energy initiatives**
- **Engages all residents and businesses**

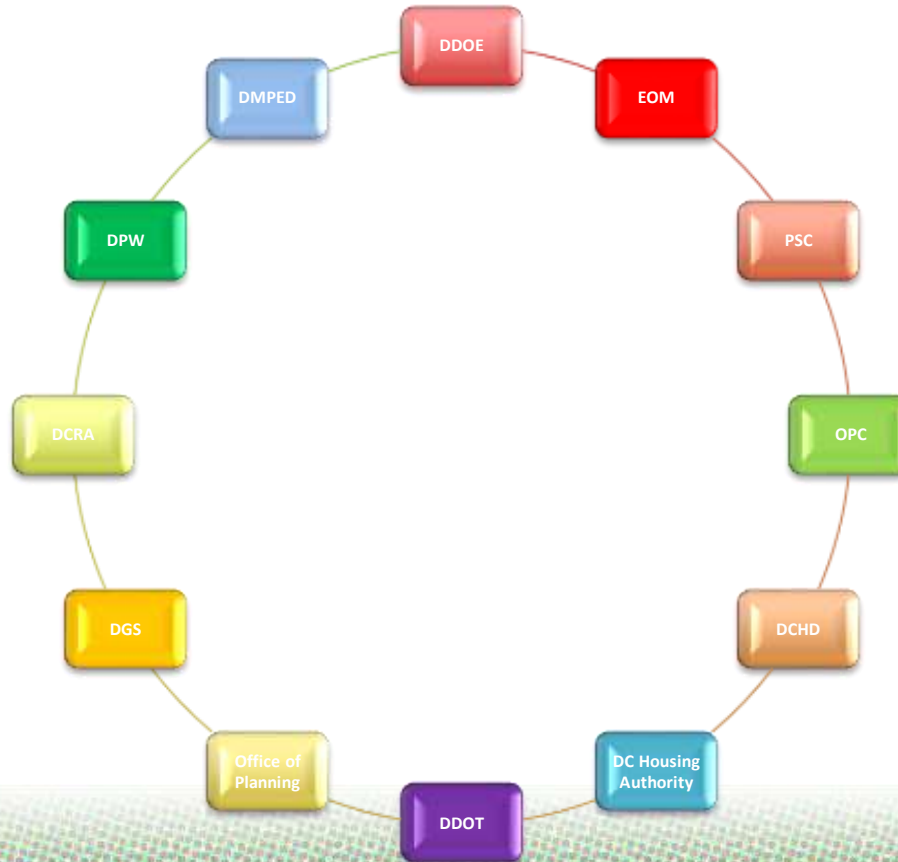

ENERGYSMART DC PLAN GOALS

- Reduce overall energy consumption by 50% by 2032
- Establish minimum performance standards for buildings
- Reduce gov't buildings electricity by 20% by the end of 2014
- Develop a wind farm in the region to power gov't and private facilities
- Modernize electricity infrastructure
- Increase the use of renewable energy by 50% by 2032
- Train DC residents for work in renewable energy, energy efficiency, and building energy management industries

ONGOING ACTIONS TO ACHIEVE ENERGY GOALS

- CAEA/DC SEU
- Benchmarking and Disclosure
- RPS
- CREA
- Sustainable DC Plan
- CAP
- Energy Assurance Plan

IMPLEMENTATION AND COLLABORATION STRATEGIES

PSC Role in EnergySmart DC Plan

- **Expanding the use of local renewable energy generation**
 - **RPS**
 - **CREA** - interconnection and net metering rules
- **DC SEU programs and activities**
- **Smart meters and smart grid infrastructure**

THE END
