

SCEO Partners and Projects

SCEP-DOE Visit

August 24, 2023

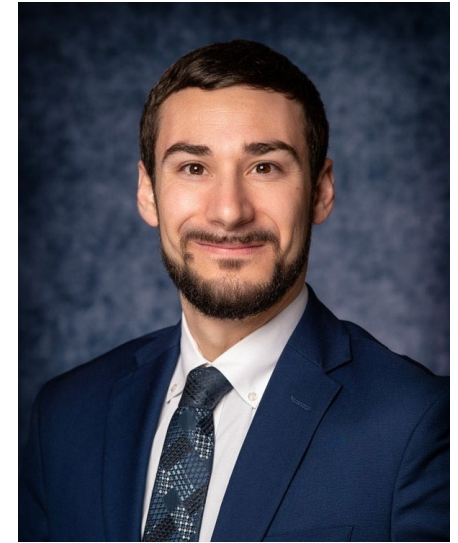

Office of State & Community Energy Programs (SCEP), U.S. Department of Energy

Dr. Henry McKoy
Director

Rose Dady
*Assistant Director SCEP,
Director of Community
Engagement Programs*

Chris Castro
Chief of Staff

Bengal Biodiesel

Organization Overview: The Bengal Biodiesel Program allows high school students to develop highly marketable industry skills through the production and analysis of sustainable biodiesel fuel.

Collaborative efforts with SC Energy Office (SCEO):

- 2021 Mini-Grant Recipient
- Grand Opening of Biodiesel Lab (March 2022)
- Bengal Biodiesel Summer Internship Program (Summer 2024)

How has the SC Energy Office been of value to your organization's programs?

Support from the SC Energy Office has been essential to our program's growth. Specifically, they have helped us increase our production and analytical capabilities. Without the SC Energy Office support, our program would not be where we are today.

Organization Overview: The Berkeley-Charleston-Dorchester Council of Governments (BCDCOG) is a voluntary association of, by, and for local governments in Berkeley, Charleston, and Dorchester counties. It was established to assist these local governments in planning for common needs, cooperating for mutual benefit, and coordinating for sound regional development. BCDCOG's purpose is to strengthen both the individual and collective power of local governments and to help them recognize regional opportunities, eliminate unnecessary duplication, and make joint decisions.

Collaborative efforts with SC Energy Office (SCEO):

- CHATS Regional EV Strategy
- Grant applications
- CARTA electric bus transition

How has the SC Energy Office been of value to your organization's programs?

Identifying, advising, and pursuing grant funding opportunities to assist the BCD region's transition to non-gasoline/diesel-powered transportation

Built Environment LLC

Organization Overview: Bourke Reeve formed Built Environment LLC in 2018 to assist his clients in meeting their sustainability and energy efficiency goals. Bourke brings over 15 years of experience in building codes, sustainability, construction, and preservation. This experience is paired with relationships with some of the leading state and regional organizations in the Southeast.

Collaborative efforts with SC Energy Office (SCEO):

- Home Energy Labeling
- Residential Energy Field Study

How has the SC Energy Office been of value to your organization's programs?

The South Carolina Energy Office provides exceptional leadership to advance efficiency education and outreach throughout the state.

Center of Resilience Excellence South Carolina

Organization Overview: A Consortium of industry, academic, federal/state agencies, and non-profits created with guidance from NASA to research, develop, and implement scalable and replicable **solutions** to resilience challenges facing South Carolina. Resilience Sectors include Water, Energy, Connectivity, Agriculture, and Natural Hazards and CORE SC initiatives **align** with SC Office of Resilience risk reduction plan and the *Vision 2030: South Carolina Science & Technology Plan*.

Collaborative efforts with SC Energy Office (SCEO)

- Project 1: CORE SC Transportation working group to identify solutions for EV infrastructure, fleet conversion, mobility for underserved communities, and collaboration with economic development, academic, and industry partners to attract companies to SC.
- Project 2: CORE SC energy initiatives to provide critical information for grant proposals related to NASA, federal and state agencies.
- Project 3: SCEO mini-grant offering shared with CORE SC Partner network and pursued for HBCU EV transportation project.

How has the SC Energy Office been of value to your organization's programs?

- up to date knowledge and expertise for federal and state initiatives,
- notice of funding opportunities,
- important connections to resources and contacts,
- support to grant proposals.

Coastal Carolina University

Pamela Martin, RISE Center

Organization Overview: The RISE Center localizes the sustainable development goals in communities and with public and private organizations in South Carolina through science-based research and student learning and engagement.

Collaborative efforts with SC Energy Office (SCEO):

- Solar Feasibility Training
- Workforce Development Task Force
- Solar Curriculum Development Task Force
- Energy Efficiency initiatives

How has the SC Energy Office been of value to your organization's programs?

- Data collection
- Stakeholder engagement
- Training
- Knowledge sharing

Conservation Voters of South Carolina

Organization Overview: Conservation Voters of South Carolina is a statewide nonprofit that fights for our air, land, water, and energy through bipartisan and pragmatic political action, making conservation and environmental issues a top priority among South Carolina’s elected leaders, political candidates, and voters. Learn more at cvsc.org.

Collaborative efforts with SC Energy Office (SCEO):

- SC Electric Vehicle Stakeholder Initiative
- SC Energy Office’s Solar Workforce Development Initiative
- SC Energy Justice Coalition
- Sharing funding opportunities with community-based organizations

How has the SC Energy Office been of value to your organization’s programs?

- Helping to identify crucial policy gaps and equity considerations (e.g. multi-family EV charging, weatherization gap)
- SCEO has been a wealth of information for us and community-based organizations in coalition spaces. They consistently share opportunities for funding, information on energy bill assistance, and information on efficiency programs
- The state-level energy data, and utility map has been assembled by the energy office on their hub site is helpful for reference.

Drive Electric Columbia

Organization Overview: Drive Electric Columbia is a 100% volunteer organization of EV enthusiasts who organize community events with the goal of engaging, educating and energizing EV growth in the community.

Collaborative efforts with SC Energy Office (SCEO):

- National Drive Electric Week event 2015 - 2023
- National Drive Electric Earth Day event 2018 - 2023
- Ribbon cutting for various EV chargers around Columbia

How has the SC Energy Office been of value to your organization's programs?

The SC Energy Office has provided funding, organization, and marketing support for our various event along with connecting our volunteers with multiple stakeholders to expand the reach of our organization.

Commercial Aviation Alternative Fuels Initiative

Chris Tindal

Assistant Director, CAAFI

Organization Overview: Since 2006, the Commercial Aviation Alternative Fuels Initiative (CAAFI) has sought to enhance energy security and environmental sustainability for aviation through the use of sustainable aviation fuels (SAF). CAAFI's goal is to promote the development of alternative jet fuel options that offer equivalent safety and favorable costs compared with petroleum-based jet fuel, while offering environmental improvement and energy supply security for aviation.

Collaborative efforts with SC Energy Office (SCEO):

- CAAFI and a few bio-based fuel companies and entities are attempting to attract renewable fuel technologies to the state to take advantage of our multiple feedstock resources

How has the SC Energy Office been of value to your organization's programs?

The SC Energy Office helps to educate the public and the energy industry about all of the many initiatives ongoing in SC including ours.

Charleston County Resilience & Sustainability

Organization Overview: Make the County more resilient and sustainable while focusing on the prevention and mitigation of climate change which causes increased sea level rise, flooding, and extreme heat in Charleston County.

Collaborative efforts with SC Energy Office (SCEO):

- Mini-Grant 2022
- Educated County staff about electric vehicles
- SC Electric Transportation Network

How has the SC Energy Office been of value to your organization's programs?

Been a resource for questions about alternative energy sources and provided financial assistance through the mini-grant program which allowed the County to lease its first six electric vehicle chargers.

City of Columbia Climate Protection Action Committee (CPAC)

Organization Overview: To develop and advocate for effective strategies to mitigate greenhouse gas emissions, adapt to climate change, conserve natural resources, and otherwise protect the environment at a City level, while also fostering an improved quality of life for the citizens of the City of Columbia.

Collaborative efforts with SC Energy Office (SCEO):

- \$10k Mini Grant for EV Charger Upgrades
- Palmetto Clean Fuels Coalition
- Various Trainings

How has the SC Energy Office been of value to your organization's programs?

- Attending Meetings
- Providing Information and Assistance with EECSBG
- Partnering on Events
- Assisting with Member Webinars

South Carolina Energy Justice Coalition

Organization Overview: The South Carolina Energy Justice Coalition is a nonpartisan collective of over 50 organizations across the four regions of South Carolina working to support communities experiencing high energy burdens, climate harm, and other inequities in the SC energy system.

Collaborative efforts with SC Energy Office (SCEO):

- Participation on our Grid Modernization & Community Solar Subcommittee
- Upcoming listening sessions about energy issues, energy policy, and IRAs
- Acting as a research partner to provide information, data, education, and support

How has the SC Energy Office been of value to your organization's programs?

1. By communicating the relevance of energy related research findings
2. Through assisting the Coalition in connecting with the community and linking affected populations with energy justice and climate conservation resources

Working Towards a SC Green Bank

Organization Overview: Green banks are mission driven institutions that utilize finance to address energy burden and assist disadvantaged communities by addressing financial gaps and barriers in clean energy and resilience projects.

Collaborative efforts with SC Energy Office (SCEO):

- Green Bank Market Assessment completed in Dec. 2022
- 600+ views and 400+ downloads

How has the SC Energy Office been of value to your organization's programs?

- SCEO facilitated the Green Bank Stakeholder Working Group beginning Dec 2020
- Impactful SCEO coordination on report, and follow-up communication since the report was finalized

Greentech Renewables

Organization Overview: Greentech Renewables strives to be the most trusted distributor in the renewable energy industry, providing customers with the tools, resources, and comprehensive services to design, finance, sell, and install PV and energy storage solutions efficiently and cost-effectively. Our core values of "Service, Integrity, and Reliability" shape our culture in our commitment to cultivating genuine customer relationships.

Collaborative efforts with SC Energy Office (SCEO):

- Workforce Development in Partnership with the South Carolina Solar Council

How has the SC Energy Office been of value to your organization's programs?

Workforce development but also bringing attention to all the communities and organizations looking for stronger partnerships in the solar industry.

Greenville Technical College EDCT

Organization Overview: Our mission is to provide the highest quality education, training and services for your corporate, professional and personal development.

Collaborative efforts with SC Energy Office (SCEO):

- FIRST RESPONDERS ALTERNATIVE FUEL VEHICLES Training (12/19/2013)
- THERMAL IMAGING FOR BUILDING INSPECTION Training (12/04/12)
- CERTIFIED ENERGY MANAGER Training with SCTCS (5/24/2010)
- Solar PV and Building Operator Training Outreach

How has the SC Energy Office been of value to your organization's programs?

Provided sponsorships for class participants

Provided equipment for classes (such as thermal cameras, arrangements for alternative fuel vehicles to be available for training)

Included program outreach in monthly newsletters

Gullah/Geechee Sea Island Coalition

The Gullah/Geechee Sea Island Coalition

- advocates for the rights of all Gullah/Geechee people around the world
- promotes and participates in the preservation of Gullah/Geechee history, heritage, culture, and language.
- works toward Sea Island land re-acquisition and maintenance.
- celebrates Gullah/Geechee culture through artistic and educational means electronically and via “grassroots scholarship.”

Collaborative efforts with SC Energy Office (SCEO):

- Gullah/Geechee ENERGY Days

How has the SC Energy Office been of value to your organization's programs?

Our collaborations have helped advance our UN Sustainable Development Goals work to end energy poverty in the Gullah/Geechee Nation. We've also been able to advance community education concerning solar energy and possibilities for this on rural Sea Islands.

Maritime Association of South Carolina

The Maritime Association of South Carolina (MASC) is a member-based non-profit trade association that connects the maritime industry and entities who support maritime commerce including warehousing, trucking, freight forwarders & manufacturers.

Collaborative efforts with SC Energy Office (SCEO):

- Education Awareness
- Speaking opportunities

How has the SC Energy Office been of value to your organization's programs?

SCEO is a great resource for myself and for our members who have questions, initiatives and more regarding alternative fuels.

National Association of State Energy Officials (NASEO)

Organization Overview:

National non-profit association for the State Energy Offices from each of the 56 states and territories. Resource for and about State Energy Offices through topical committees, regional dialogues, and informational events that facilitate peer learning, best practice sharing, and consensus building. www.naseo.org

Collaborative efforts with SC Energy Office (SCEO):

- Energy Equity Committee (Stacey Washington Co-Chair)
- Energy Security Committee
- Transportation Committee
- NASEO-NARUC Grid-Interactive Efficient Buildings Working Group
- NASEO-NARUC Advanced Nuclear State Collaborative
- Other committees and initiatives

How has the SC Energy Office been of value to your organization's programs?

Strong and sustained engagement from SCEO in NASEO convenings, meetings, conference, and peer sharing events.

Organization Overview: Natural Gas Vehicles for America is a national organization dedicated to the development of a growing, profitable, and sustainable market for vehicles powered by natural gas or biomethane. Paul Sandsted is NGV America's Director of Technology and Sustainability and works remotely out of his home office in Columbia, SC.

No direct collaborative efforts with SCEO to date, but the following are recent projects in SC which are important to reference:

- [RNG Project in Honea Path, SC now in commercial operation for reducing methane emissions and producing renewable energy](#)
- [SC facility to start producing renewable natural gas \(RNG\) from landfill gas starting 2024](#)
- [Sonoco Partners with GreenGasUSA to reduce emissions and provide renewable energy from Hartsville wastewater treatment facility](#)

Rolls Royce Solutions America

• Organization Overview:

- Developing sustainable solutions to meet challenges in the drive and power generation sectors is the principle strategic objective of Rolls-Royce's Power Systems business unit with its products and solutions brand **mtu**.
- Our environmentally and climate-friendly technologies make a major contribution to the energy revolution to secure a sustainable future and meet our social responsibility.
- As a leading supplier of power for safety-critical installations and integrated drives for marine, heavy off-road and rail applications, we have been reliably partnering with our customers for over 110 years.

Southeast Energy Efficiency Alliance

Organization Overview: SEEA is a 501(c)(3) nonprofit organization that works in eleven states and five U.S. Island territories to ensure that all people live, work, and play in healthy and resilient buildings, utilize clean and affordable transportation, and thrive in a robust and equitable economy. Through research, programming, and policy support, SEEA leverages energy efficiency to decrease regional emissions, expand access to clean energy, and support healthy, affordable housing for vulnerable communities.

Collaborative efforts with SC Energy Office (SCEO):

- South Carolina Residential Energy Code Field Study
- Southeast Energy Insecurity Project (SEIP)
- SC Energy Efficiency Roadmap

How has the SC Energy Office been of value to your organization's programs?

Collaboration around delivering federal funding to disadvantaged communities; thought leadership on mitigating energy insecurity and advancing energy efficiency

The Shi Institute for Sustainable Communities

FURMAN
THE SHI INSTITUTE FOR
SUSTAINABLE COMMUNITIES

- **Organization Overview:** The Shi Institute for Sustainable Communities is a regionally focused institute promoting sustainable human flourishing through education, research, and leadership. The Shi Institute brings together environmental scientists and economists, urban planners and policy experts, students, faculty, and community members, and sustainability visionaries and elected officials to collaboratively pursue and promote sustainable communities.

Collaborative efforts with SC Energy Office (SCEO):

- Will potentially partner on South Carolina Home Energy Labeling project via our home weatherization program, the Community Conservation Corps.

SOUTH CAROLINA DEPARTMENT OF
Employment and Workforce
“The Workforce Agency”

Organization Overview: To promote and support an effective customer-driven workforce system that facilitates financial stability and economic prosperity for employers, individuals, and communities.

Collaborative efforts with SC Energy Office (SCEO):

- Participated in the EV Stakeholder Initiative
- Engaged in development of EV workforce study
- Involved in Solar Workforce Development efforts led by the Energy Office

How has the SC Energy Office been of value to your organization’s programs?

Through the EV Stakeholder Initiative, the SCEO established a solid foundation for the EV workforce study. The report helped increase our awareness and knowledge of the growing industry and provided a list of stakeholders to engage in development of the workforce study.

DHEC Environmental Affairs

(Department of Health and Environmental Control)

Organization Overview: Environmental Affairs protects, promotes, and preserves and the environment so that South Carolinians have clean air, land and water; and enhanced coastal resources.

Collaborative efforts with SC Energy Office (SCEO):

- 2021 SC Energy Efficiency Roadmap
- SC Home Energy Labeling project
- Southeast Energy Insecurity Stakeholder Initiative (Duke Nicholas Institute)

How has the SC Energy Office been of value to your organization's programs?

- Connecting with Stakeholders
- Communicating Available Resources
- Convening Energy-focused Work Groups

South Carolina Department of Transportation

Organization Overview: The South Carolina Department of Transportation (SCDOT) is the state agency in South Carolina responsible for planning, maintaining and operating 41,295 centerline miles of roadway and 8,443 bridges, which makes up the fourth largest state-owned system in the United States.

Collaborative efforts with SC Energy Office (SCEO):

- Designation of Alternative Fuel Corridors
- National Electric Vehicle Infrastructure (NEVI) Formula Program
- Governor's Interagency EV Working Group

How has the SC Energy Office been of value to your organization's programs?

Serves as a strong partner to provide energy expertise and to provide critical connections with energy industry leaders.

South Carolina Office of Resilience

Organization Overview: SCOR exists to lessen the impact of disasters on South Carolina's communities and citizens by planning and coordinating statewide resilience, long term recovery, and hazard mitigation. In June 2023, SCOR completed the *Strategic Statewide Resilience and Risk Reduction Plan*, a framework to guide state investment in flood mitigation projects and the adoption of programs and policies to protect the people and property of South Carolina from the damage and destruction of extreme weather events.

Collaborative efforts with SC Energy Office (SCEO):

- EPA Solar For All, grant application due 9/26/23
- EPA Climate Pollution Reduction Grant (CPRG) program, interagency coordination partner
- IRA Home Energy Rebate Programs

How has the SC Energy Office been of value to your organization's programs?

The SC Energy Office served on the Resilience Plan Advisory Committee and is now a partner on several efforts intended to benefit low-income households, lessen the impacts of extreme events, and build overall community resilience.

S.C. Research Authority

Organization Overview: SCRA fuels South Carolina's innovation economy by accelerating technology-enabled growth in research, academia, entrepreneurship, and industry.

Collaborative efforts with SC Energy Office (SCEO):

- Project 1: Letter of Collaboration for the NSF Innovation Engine Type I proposal awarded to SC and NC for clean energy, Clean Carolinas.
- Project 2: SC Electric Vehicle Stakeholder Initiative
- Project 3: SCEO supports SCRA in economic development projects by providing critical energy/EV information and meeting with prospects. Their engagement helps to attract energy related companies to relocate to South Carolina, aligning with the SCRA Relocation Grant.

How has the SC Energy Office been of value to your organization's programs?

SC Energy Office provides:

- up to date knowledge and expertise for federal and state initiatives,
- notice of funding opportunities,
- important connections to resources and contacts,
- commitment to support, collaborate, and provide resources on grant proposals, and
- opportunities to contribute Stakeholder interests in planning statewide energy infrastructure.

Solar United National LLC

Solar United has won 2 separate DOE Hero X Challenges to bring Community Solar, Renewable Energy, Workforce Development and Grid Modernization to Underserved Communities.

We are developing 10 Renewable Energy Workforce Development Training sites across SC. The goal at each site is to create a Resiliency Hub, EV Fast Charging Stations and a Community Based Solar Project to bring meaningful savings and benefits to LMI households.

Collaborative efforts with SC Energy Office (SCEO):

- Watershed Consulting: Mike McCauley
- Georgetown: Gullah Geechee Chamber Foundation and The Village Group
- Barnwell: Imani Group and Ned Branch Baptist Missionary
- Aiken: Imani Group and 2nd Baptist Church
- Florence: New Alpha CDC and The Whitney M Slater Foundation
- Greenville Sustaining Way

How has the SC Energy Office been of value to your organization's programs?

The Energy Office Team has been instrumental in helping our company's formation and Success. The creation of the Statewide Workforce Development Working Group, has spurred many fruitful relationships and helpful pathways to implementation. The team continues to provided access to information that helps build our network of training sites and potential funding opportunities for implementation of our work. As we seek to become a leasing agent in SC for our Community Based Solar Projects, the Office has helped us navigate the ORS process with guidance and advice. Without the team's assistance we would not have been successful in creating the Renewable Energy trainings and Community Solar projects in planning in SC. Thank You.

Southeast Sustainability Directors Network

Organization Overview: Southeast Sustainability Directors Network (SSDN) connects local government sustainability professionals throughout the region to accelerate, scale, and implement sustainable and equity best practices. In addition to peer networking, SSDN also leads Local Infrastructure Hub efforts in the SE and is a federally funded technical assistance center through serving as an EPA Region 4 Multimedia Environmental Finance Center

Collaborative efforts with SC Energy Office (SCEO):

- Collaborative conversations to help South Carolina local governments access and benefit from federal funding programs
 - DOE EECBG
 - EPA Climate Pollution Reduction Grant
 - EPA Solar for All

How has the SC Energy Office been of value to your organization's programs?

Open communication regarding available funding opportunities, mutual interest in serving SC's local governments effectively

Southern Alliance for Clean Energy

Organization Overview: Since 1985, SACE has been a leading voice for equitably transforming the way we produce and consume energy in the Southeast. Our Electrify the South program leverages research, advocacy and outreach to accelerate the equitable transition to electric transportation across the Southeast.

Collaborative efforts with SC Energy Office (SCEO):

- SC EV Stakeholder Initiative Advisory Committee
- Wind Powering America: A New Wind Economy for South Carolina and Georgia

How has the SC Energy Office been of value to your organization's programs?

- Participating in events like Ride and Drives, Local Government Collaborative, Rivian WayPoint ribbon cutting
- Sharing our findings from our Transportation Electrification in the Southeast report
- Creating educational content to share with members, such as "A Consumer Guide to Solar for the South Carolina Homeowner"

City of Spartanburg

Organization Overview: The City of Spartanburg is committed to sustainable growth, inclusive economic development, and improving quality of life for all residents in our community. Our core organizational values are service, equity, inclusiveness, and kindness and our team applies these principles to everything we do.

Collaborative efforts with SC Energy Office (SCEO):

- Underserved Community EV education programs
- Regional EV charging planning
- Fleet analysis and conversion
- Coordination with CORE SC projects

How has the SC Energy Office been of value to your organization's programs?

- More than we can list here!
- Partners with tremendous expertise and knowledge base
- Connection to resources, subject matter experts, professional organizations, and vendors
- Analysis tools
- Funding opportunities

EPA TCTAC

Thriving Communities Technical Assistance Centers

Organization Overview: The TCTAC provides technical assistance to reduce barriers to communities seeking federal funds to address environmental justice issues in South Carolina. The TCTAC is a new organization, launching September 1.

TCTAC Leadership has previously partnered with SCEO:

- Climate Ready Columbia Conference (spring 2021), a public facing conference focused on local climate readiness and resilience in the Midlands.
- Conducted a survey of SC Municipalities on their interest and capacity for attaining federal funding in the areas of energy, infrastructure, and resilience.
- Worked to raise awareness of federal funding opportunities in SC counties and municipalities.

How has the SC Energy Office been of value to your organization's programs?

SCEO staff serves on our community advisory board.

SCEO staff connect us with stakeholders and communities throughout SC.

SCEO provides information about state and federal energy programs and funding opportunities to us and the public.

Trident Technical College

Organization Overview: Approximately 12,000 students are attending TTC to prepare for a successful future. The college offers more than 150 programs of study, including transfer programs for those continuing at four-year colleges and beyond. Students prepare for careers in business; industrial and engineering technology; aeronautical studies; health care; hospitality, tourism and culinary arts; film, media and visual arts; law-related studies; community, family and child studies; humanities and social sciences; and science and mathematics.

Collaborative efforts with SC Energy Office (SCEO):

1. SC Dept of Energy campus energy efficiency improvements. \$166,410. 2010
2. SC Dept of Energy Solar Energy Training \$25,000. 2010
3. SC Department of Energy Association of Energy Managers certificate program. 2010
4. SC Energy Office's Demonstration Project Mini-Grant. \$10,000. 2021-2022

How has the SC Energy Office been of value to your organization's programs?

1. ARRA funding to improve campus energy efficiency by replacing fluorescent lighting with LED fixtures.
2. Provided equipment and PD for two instructors to become certified as solar energy trainers. *(TTC has a solar energy field on Thornley Campus in Charleston SC).*
3. Training program through the SCEO Association of Energy Managers for TTC Dean of Engineering.
4. TTC "Building 400 Lighting Replacement" project replaced fluorescent fixtures with LED fixtures leading to much brighter and more energy efficient lighting.

University of South Carolina

The University of South Carolina is South Carolina's flagship for higher education. A Carnegie One research institution, USC has eight campuses in twenty locations. Founded in 1801, USC currently educates more than 50,000 students across more than 350 degree programs.

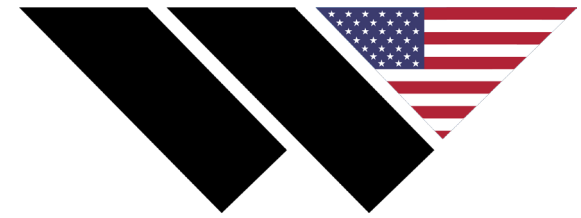

Collaborative efforts with SC Energy Office (SCEO):

- Ongoing efforts with our College of Engineering and Computing where more than 40% of the faculty are working on energy solutions.
- SC Nexus – South Carolina's tech hub submission to the US Dept of Commerce's Economic Development Authority (EDA).

How has the SC Energy Office been of value to your organization's programs?

Helping advise on issues and support the building of collaborative approaches to meet our state's growing energy needs.

W International SC, LLC

W INTERNATIONAL

Organization Overview: W International is a heavy metal fabricator that manufactures complex steel structures for U.S. Navy Shipbuilding, Space Exploration Launch Pads, Energy Markets, and National Security projects. Large critical components are shipped via barge utilizing W International's waterfront site on the Cooper River just north of Charleston.

Collaborative efforts with SC Energy Office (SCEO):

- Expand W International's capabilities for fabricating offshore wind foundations and hydropower structural components and turbine generators

How has the SC Energy Office been of value to your organization's programs?

- Connected W International with key offshore wind stakeholders.
- Provided the company with information related to industry and government policies, regulations, vision, and incentive programs to develop a domestic supply chain and create new jobs to support securing a clean renewable energy.

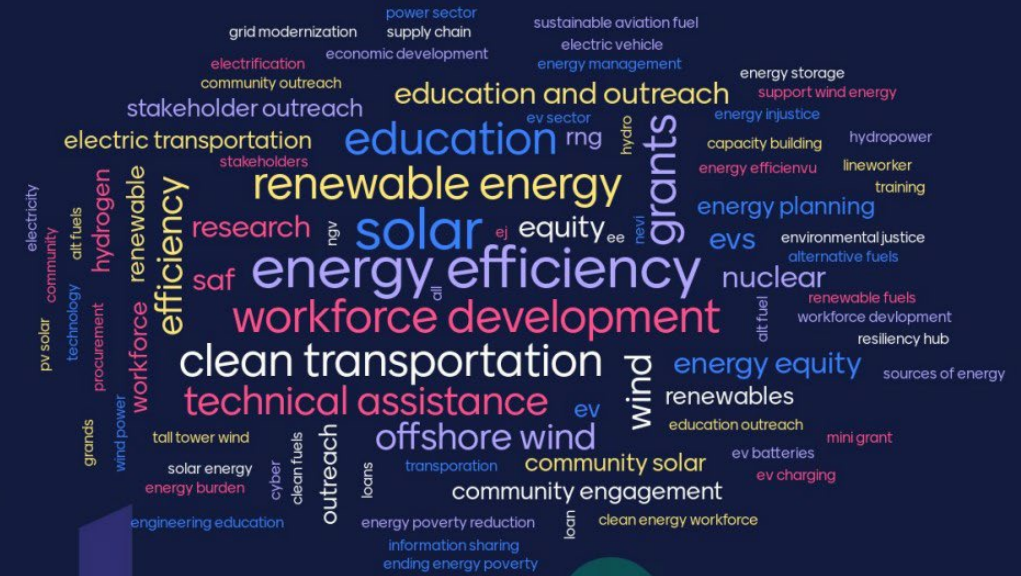

Thank You!

We are better together!

In what focus areas within the Energy Office's mission has your organization engaged?
