

## FY'17 Budget Proposal for U.S. Department of Energy Programs

| <b>Program Highlights</b><br><i>(Dollars in Thousands)</i> | <b>President's<br/>FY'17 Proposed</b> | <b>FY'16<br/>Actual</b> | <b>President's<br/>FY'16 Proposed</b> | <b>FY'15<br/>Actual</b> |
|--|---------------------------------------|-------------------------|---------------------------------------|-------------------------|
| Electricity Delivery and Energy Reliability (OE)           | 262,000                               | 206,000                 | 270,000                               | 147,000                 |
| Energy Efficiency and Renewable Energy (EERE)              | 2,898,000                             | 2,073,000               | 2,723,000                             | 1,914,000               |
| Advanced Manufacturing                                     | 261,000                               | 228,000                 | 404,000                               | 200,000                 |
| Vehicle Technologies                                       | 469,000                               | 310,000                 | 246,000                               | 225,000                 |
| Building Technologies                                      | 289,000                               | 200,000                 | 264,000                               | 172,000                 |
| Hydrogen and Fuel Cell Technologies                        | 106,000                               | 100,000                 | 103,000                               | 97,000                  |
| Federal Energy Management Program                          | 43,000                                | 27,000                  | 43,000                                | 27,000                  |
| Solar  | 285,000                               | 242,000                 | 336,000                               | 233,000                 |
| Wind Energy  | 156,000                               | 95,000                  | 145,000                               | 107,000                 |
| Water Power  | 80,000                                | 70,000                  | 67,000                                | 61,000                  |
| Bioenergy Technologies                                     | 279,000                               | 225,000                 | 246,000                               | 225,000                 |
| Geothermal   | 100,000                               | 71,000                  | 96,000                                | 55,000                  |
| Office of Weatherization and Intergovernmental Programs    | 326,000                               | 265,000                 | 318,000                               | 243,000                 |
| U.S. State Energy Program                                  | 70,000                                | 50,000                  | 70,000                                | 50,000                  |
| Weatherization Assistance Program                          | 230,000                               | 215,000                 | 228,000                               | 193,000                 |
| Energy Information Administration                          | 131,000                               | 122,000                 | 131,000                               | 117,000                 |
| Office of Fossil Energy                                    | 878,000                               | 632,000                 | 842,000                               | 791,000                 |
| Office of Science  | 5,672,000                             | 5,350,000               | 5,339,000                             | 5,067,000               |
| Office of Nuclear Energy                                   | 994,000                               | 986,000                 | 907,000                               | 833,000                 |
| ARPA-e   | 500,000                               | 291,000                 | 325,000                               | 280,000                 |
